everal smart mornistray began by the same agree on First the early an passed are first the early and passed around that for a tolerant passed around that for a passed are to the tolerant the passed of the tolerant the man first the bar passed to even money, while there was a rush to back Firstone down to to 2. At the last margaret, however, the

Commissioners furried from book to bunk ting thomsands of dollars on Hosehors who had bet on Firestone began to amed a fat and did their text to herge their sagers. Then when Hoseisen came home since the beckmakers tumbled to the fact that they had been clevely tricked. Itselfon gave ale weight to concerning in the race except regione and seemed to be at his best

there was a lot of expensing in the parisfork trains Voorhoos was said to have not on the coit, and as Wishard does not bet as here was a scramble to get aboard. But fom Dolan, even though he receied to 11 to good he was, with the result that the books net another wagen load of gold.

When Miller was announced as the rider of P. J. Rainey's John Marra, a coit by Jack oint, for whom the young millionaire paid 5,000 lase apring, the tip was circulated at 500 and 1,000 yards, will also be decided. the combination was worthy of in the Cartridge Stakes. So hig money was wagered on the Rainey colt, who ran such a had race that his backers could not account it. The play on the Rainey colt forced the price against Johnnie Blake up to 2 to 1, but Fred Cook and his friends then sent in . enough money to back the son of The Com-mander down to 2 to 5. Dennis Stafford and Castlewood meanwhile were liberally taken three ways, so that on the general result, in of the coin placed on John Marra, the books lost. Previous winners of the Partridge Stakes were Strathmeath, Rex. Marshall. Armitage, Harry Read, One I Love, George Rose, Central Trust, King Barleycorn, Water King, Demurrer, Gay Boy, Wild Thyme, Dolly Spanker, St. Bellane, Yankes Consul and Fountainblue
If Smiling Tom had won the Dolphia Stakes

William H. Du Bois, the owner of the Pat-chogue Stable, would have put a large crimp the bookmakers' bank rolls. He sent his agents into the ring and they proceeded to back the son of Sf. Blaise from 20 down to 12 to 1, getting enough on for the place to make a cleanup any way as the race resulted. Smiling Ton: would probably have won if Knapp could have kept the rail, but the fact that he went wide in the stretch proved costly. Monfort carried the wagers of nearly all the big bettors who frequent the clubhquee and the paddock, as Tom Healey said that the Ornament colt could not lose in the heavy going. While the books lost thousands on had a couple of life savers in Killaloe and Dashaway. Before the race John E. Madden sold Dashaway, a son of Salvator, to ex-Jockey Frank O Neill, in whose colors the colt ran. Previous winners of the Dolphin were Kingston, Judge Murray, Buddhist, Ruperta, La Tosca, Leonawell, St. Leonards, Henry of Navarre, Emma C., Goldcrest, Bernardillo, Florenzo, McLeod of Dare, Lady Massey, Watercolor, Igniter, Eugenia Burch,

"Jack Metiannis has a good thing in Welbourne," said the paddock sharps just before the fifth race, and this information soon became widespread Everybody who is anybody at the track took the tip and sent his coin to the ring. It was a big plunge and the books were soon rubbing the odds until at the time the horses reached the post 8 to 5 was the best on tap. Tony Bonero was also heavily backed both ways, while Lord Lovat got a show play that was extremely liberal. When these three horses finished as named and played the ring fairly groaned aloud. R. F. Carman, who scratched Mark Anthony II. and Acrobat out of the race, sent a fat commission to the ring on Arimo, who was re duced from 10 to 8, but the son of Soltiaire II. evidently had up too much weight for he could not extend himself on the grass. Miss Crawford and Dolly Spanker were also well supported, but the more they were backed the higher went the odds.

Dixon Belle proved to be the last straw

in the final event. Jack Bennet, Bob Rose, Jesse Lewischn, A. B. Hudson, John E. Madden and other big clubhouse operators had the commissioners plastering the books They got 3 to 1 for some of the money, but at the last moment 9 to 5 was the best in sight This heavy play, made Sungleam, the original favorite, recede to 11 to 5. Sandy had to use his whip freely to get Dixon Belle home in front whereupon the layers threw up their hands In disgust. Complete, who ran second in the colors of the Palestine Stable, well played across the boards at 20, 6 and 2, is a filly by Compute Reginella. Woodford Clay started in this race a filly named Annoyance, by Meddler Victoria IV., who received a solid play three ways from the Millerites, who had pretty tough day, all things considered. It was said that James B Brady's Oiseau and Waterlight had been permanently re-

tired. Brady got Oiseau as a two-year-old for \$28,000, but he did not come up to expectations, although he ran some good races as a three-year-old. Just where these stallions will be sent nobody could say yesterday Roger Minton, the clever trainer who has handled many good horses belonging to Senator McCarren and M. L. Hayman, announced yesterday that he had severed all relations with the Haymans, and had turned over all of the horses in his charge to them. Minton also stated that he had signed a contract to train for Sam Lazarus, the well known Texas breeder and owner, who has Right Royal and six others in his string. Lazarus intends to

from W. K. Vanderbilt yesterday that the latter's two-year-old American bred colt. Schuyler, by Meddler Louise M., the latter a half sister to Martha II., the dam of Artful, had won the Prix de la Rochette on Sunday, this event being at seven furlongs. The colt Schuyler has yet to be defeated on the French

turf
Jockeys Miller and E. Dugan had some differences yesterday which resulted in a threat
by the latter to hand Miller a flying punch. A
growd gathered in the paddock after the races
to see the scrap, but although Miller was on
hand it was said that Boots Durnell had
spirited Dugan away.

Hartram Refuses His Own Prize. In the tournament of the Atlantic Y, C. in men's singles R. W. Bartram, who was beaten in the final round, presented the cup for the second place, which thus went to him. Bartram therefore withdrew and it was arranged that G. S. Curtis and H. Easle, who were beaten in the semi-sinal round, should be for that trophy.

Golf.

At the annual golf tournament on the Lake Mohonk, Ulaser county, links, against a field of twenty contestants. Augustus O. Bourn, Jr., of Bristol, R. I., won the first prize with a score of e for eighteen holes and play for that trophy.

called owing to the number of entries Reginald and Alfred Vanderbilt have in many of the classes in the show. To-day, the second day of the show, Reginald Vanderbilt was out again to sweep everything before him and scored away above his chief competitor, his brother Alfred Reginald Vanderbilt carried off three first prizes, two second prizes and two third prizes, while Alfred Vanderbilt captured two firsts, one second and two thirds.

The Westchester Farm entries again continued to shine in the classes for hunters and lumpers to-day and carried off the honors despite the unfavorable condition of the ring. The driving of Mrs. Reginald Vanderbilt in the classe of ladies phaeton horses was a prefty feature of the show. The weather conditions to-day were not much better than yesterday, though there was a larger attendance.

## International Chess.

Special Cable Despotch to THE SUN CARLSBAD, Sept. 3. Failure to win against Schlechter in the eleventh round of the international chess masters' tournament contested here to-day cost Maroczy, the Hungarian champion, first place for the time being. The game in question resulted in a draw. The Russian, Rubinstein, by defeating Johner Russian, Rubinstein, by defeating Johner of New York supplanted Maroczy in the lead. Vidmar drew with Salwe and kept third place, while Teichmann, who won his game from Wolf, also held his own in fourth position. Other results were: Duras. 1: Janowski, o. Berger, 1: Niemzowitsch, 2: Tschigorin, 1: Marshall we. Cohn, adjourned in favor of Marshall, Miesea vs. Chotimirski, adjourned in favor of Chotimirski; Tartakower had a bye. The records:

DEST TREATS SEGGESTED FO MORRIS PARK MOTORDROW M. Archer Thinks Event Similar to That

Recently Promoted by Royal Automo-tile (Int) in England Should Se Au-Shorter Term for Chanffenr Publis One of the most serious problems the confronts automobilists all over the mrid is the dust nuisance, and it is a problem " Jooms larger every year as the nur motor vehicle users increases. T motorists who do most of their cities or on little used roads the for finding some method of preventing is not so apparent as to those who mak-

quent trips over macadamized highways ! are popular with drivers of both horse drawn and motor driven vehicles. In discussing this matter restorday A. M Archer of the Automobile Club of Ameri made the suggestion that a series of on very much the Morris Park Motordron very much the same plan as was used the Royal Automobile Club in its dust tron the great Brooklands automobile racetra.

Mr. Archer is of the opinion that the design of a car's running gear has considerable to do with the amount of dust raised by car-and a series of trials would help designers cars to make such minor changes in running gears and bodies as would lessen amount of dust they would raise.
On trips that he has made to Bosto
Philadelphia Mr. Archer has had the :

sity for an abatement or lessening of th nuisance very forcibly impressed upon and is of the opinion that the motoring or izations should begin a campaign for abolition of this source of annovance, v not only bothers automobilists but driv of horse drawn vehicles and residents alor

It has been the complaint of British railway officials for the last two or three years that a serious falling off in the patronage of their first class accommodations was being manifested. Now it appears that this is in some measure at least chargeable to the increased use of automobiles by those who would be more likely to travel first class, when using the train service. The defection is particularly noticeable in the case of the special trains which are run to horserace meetings. It was estimated that fully 3,000 persons went down to one of the recent Ascot races in automobiles, many of whom a few years ago would have gone by rail. A still more striking instance of the way in which the automobile is creeping into really practical commercial service develops on the complaint of a number of London automobile liverymen. They assert that since the advent of the taximeter cab their former lucrative business has fallen off considerably.

A novel combination of an oil and water circulating pump has just been brought out by a Frenchman. A double casting is employed, in which the two rotors are driven by a single shaft. It is asserted that no leakage between the two compartments can take place, while the effect of their proximity is to raise the temperature of the oil, through contact with the passages heated by the jacket water.

It is a good plan to give some attention to the lubricating system now and then, especially where a series of small tubes are the mediums of feeding the oil. The films of oil in these tubes will often solidify, reducing the bore or altogether obstructing it. The remedy is to unmount the tubes and if steam is available blow it through them. Another remedy is to cork one end of the tube and fill it with gasolene, which will dissolve the hardened oil after a time, so that it can be removed with a piece of wire.

Working the highways as commonly done in many States is a very unprofitable expenditure of labor. Not that the farmer and his teams do not do enough work, but it is often unisely managed. Seldon do two men in the district have the same ideas of how the roads should be made or mended. A pathmaster or overseer may be elected one year who will fix the road according to his ideas. Next year some one else may be put in office who will proceed to undo what has been done by doing things his way. The result is that we have merely been mending instead of making highways, and there are thousands of miles of road that are very little better than the trails and paths followed by our forefathers. Payment of the highways in better shape, if there are not too many officeholders to support.

E. V. Stratton, secretary and manager of

E. V. Stratton, secretary and manager of the New York Automobile Trade Association, announces that the organization now has a membership of sixty-one local dealers, branch houses and garages.
